

Biodesign Biocatalysis

UW-Madison Seminar Series

Sponsored by Wisconsin Energy Institute

Kevin Solomon

University of California-Santa Barbara

Teaching an old dog new tricks: (Re)engineering microbes as chemical factories and beyond

Thursday, January 22nd

1:00 p.m. – 2:00 p.m.

Ebling Auditorium, Microbial Sciences Building

The Biodesign Biocatalysis Seminar series will highlight faculty candidates in a UW cluster hire search at the cutting-edge of two exciting and rapidly growing areas in the biosciences. If you are interested in meeting with one of the visiting candidates, please contact Kylie Maxcy (890-2416; kmaxcy@glbrc.wisc.edu).
