

Distinguished Lectures in Microbiology

Spring 2013

Thursdays at 3:30 p.m. in the
Ebling Symposium Center, Microbial Sciences Building

- JAN 28** The Department of Bacteriology will be hosting candidates for the faculty position, beginning January 28th and ending on March 4th. Please see the recruitment schedule for more info.
- FEB 28** **Dr. Mecky Pohlschroder** **University of Pennsylvania**
Diversity & subcellular localization of prokaryotic secreted proteins
- MAR 07** **Dr. Mark Borchardt** **U.S. Department of Agriculture**
Groundwater-borne pathogens & the human health risk
- MAR 14** **Dr. Matt Sullivan** **University of Arizona**
Ocean viruses: Tiny entities with global impact
- MAR 21** **Dr. Roderick Mackie** **University of Illinois**
Enzyme discovery: Biochemical characterization & functional diversity of Glycosyl Hydrolases from rumen bacteria
- APR 11** **Dr. Gerwald Jogl** **Brown University**
A structural basis for streptomycin-induced misreading of the genetic code
- APR 18** **Dr. Alfred Spormann** **Stanford University**
Microbial life as a dehalogenator
- APR 25** **Dr. Susannah Tringe** **U.S. Department of Energy**
Metagenomic investigation of complex microbial communities
- MAY 02** **Dr. Scott Dawson** **University of California-Davis**
Cell structure & genomics in anaerobic protists
- MAY 09** **Dr. Eric Webb** **University of Southern California**
Evolution, genomics, and in situ physiology of the oceanic diazotroph *Trichodesmium*

Department of
Bacteriology
University of Wisconsin-Madison
